

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Edgar G. Rodriguez on January 27, 2011.

2. The application has been amended as follows:

Claims 8, 9, and 14-20 are cancelled.

3. The following is an examiner's statement of reasons for allowance: applicant's arguments in the pre-appeal conference request dated November 8, 2010 (section B on pp3-4) have been found persuasive. Accordingly, the prior art rejections set forth in the previous Office action dated July 6, 2010 have been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Claims 21 and 46 and all dependent claims thereof are allowable for the reasons set forth above. The restriction requirements among the species as set forth in the Office actions mailed on June 21, 2006, March 19, 2008, and December 16, 2008 have been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 24-30 and 42, directed to the species listed in the Office actions mailed on June 21, 2006, March 19, 2008, and December 16, 2008 no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim 21.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

5. Claims 21-30, 33-40, 42-50 are allowed.
